

To whom it may concern,

I discovered K-LOVE about 2-years ago. Since then, they have become the primary radio station for me and my family. K-LOVE provides music and commentary that are safe for families to listen to. When my sons and their friends listen to the radio I feel comfortable knowing they will not be subjected to foul language, dialogue that is derogatory against specific genders, races, etc. or hear something that is going to create confusion or distress.

The loss of K-LOVE would be felt by many in my area. I know many people who listen to this station. For me personally, K-LOVE is what gets me through my days. I listen to them when I'm getting ready for work, while I'm at work and on my way home. The music they play fills me, and those around me, with a feeling of peace and love. If K-LOVE were to be replaced by another program, there would be no other station for many people to listen to. They carry such a positive message to so many people - Christian and non-Christian.

Please keep K-LOVE on the air!

Sincerely,

Anna M Da Rosa
